

Heavy Duty Passenger Side Mount

Heavy Duty Computer Mounting System

HAVIS
Productivity in motion

Heavy Duty Mounts

The Havis Heavy Duty Mount is a rugged, professional grade computer mount that combines the perfect balance of strength, safety, and ultra-smooth operation worthy of your most mission critical computer devices.

- Heavy Duty Mounts are stout: Heavy gauge steel poles, welded, rigid seat bases along with its universal support arms virtually eliminate wobble and vibration that can make reading difficult.
- Heavy Duty Mounts are safe: A standard stop collar allows the installer to adjust the height and limit the computer from telescoping below desired height. Order the optional top lock and the entire rotation can be positively locked in place to prevent the unit from spinning in a collision or air bag deployment.
- Heavy Duty Mounts are smooth. Designed with a unique precision machined aluminum clamp and lever along with a PVC split sleeve for no metal-to-metal contact when adjusting the pole. All moving parts have a glossy, ultra smooth e-coat finish which further reduces friction. Order the optional "lift assist" gas shock kit that you can drop in the pole assembly and the Heavy Duty Mount will help you do the lifting and prevents the heavy equipment from slamming down.

Swing Arm Motion Device and Tilt/Swivel Mount help to position computer in the middle of your vehicle for safety and comfort of the occupants.
(C-MD-102)

Height Adjustable Poles bolt to any C-HDM-100 Series Base.
(C-HDM-200 Series)

Stability support arm adds upper support for premium top level stability.
(C-HDM-400 Series)

Precision machined parts eliminate metal-to-metal contact and allow smooth movement during height adjustment.

Built in theft deterrence as the inner pole is captive due to lower guide bushing.

Optional "Lift Assist" Gas Shock helps smoothly lift heavy equipment.

Vehicle Specific Mounting Bases mount to existing OEM seat bolts for easy installation.

Most include angled offset brackets which position the system closer to the driver for ease of use.
(C-HDM-100 Series)

Visit www.havis.com/HDM to configure your own Heavy Duty Mount system.

Heavy Duty Mount System

Vehicle Specific Bases

Havis' newly re-designed Heavy Duty Bases (C-HDM-100 Series) are a rugged, professional grade computer mount that combines the perfect balance of strength, safety, and ultra-smooth operation worthy of your most mission critical computer devices.

- Heavy duty vehicle specific mounting base mount to existing OEM seat bolts
- Works in conjunction with Havis, inc. hump mount brackets
- Manufactured from 10 gauge steel
- Gusseted and welded design for extra strength mounts independently of a console
- Configurable for many universal laptop, keyboard and docking station mounts
- Works with C-HDM-200 Series telescoping poles for easy installation (sold separately)

Telescoping Poles

Havis' Heavy Duty Telescoping poles mount to the C-HDM-100 Series Bases and provide easy up and down adjustment to your computer mount.

- Heavy duty telescoping pole with precision machined solid billet aluminum clamp collar
- Manufactured from heavy gauge steel poles and close tolerance PVC bushings on all bearing surfaces
- Precision machined parts eliminate metal to metal contact and allow smooth movement during height adjustment
- Configurable for many universal laptop, keyboard and docking station mounts
- Bolts to C-HDM-100 series vehicle specific bases for easy installation (sold separately)
- Height adjustable with clamp collar latch to set telescoping height and 360° rotation
- Standard adjustable stop collar limits the computer from telescoping below desired height

Motion Devices & Options

Havis' offers a full line of options that improve ergonomics and enable comfortable use of all equipment. Motion Devices feature an adjustable quick-release handle which makes positioning laptops and docking stations safe and easy.

- Swing Arms with motion adapters are ideal for computer usage from both the driver and front passenger seats. Their ruggedized design protects occupants and equipment in quick maneuvers and crash situations (C-MD-102)
- Tilt/Swivel motion devices enable 180° horizontal rotation for laptops and docking stations. Used to mount keyboards mounts, laptop mounting plates, docking stations and more to HDM poles (C-MD-202)
- Side support arms add upper pole support for premium top level stability and are highly recommended for all HDM applications (C-HDM-401/404)
- Heavy duty "lift assist" gas shocks help smoothly lift heavy mounts and prevents computer equipment from slamming down when the clamp is unlocked (C-HDM-405/406/407/408/415)

C-HDM-211	16"-29.5" Telescoping Pole

Part Number	Description
C-HDM-212	16" Telescoping Pole w/ gusseted base
C-HDM-213	12" Telescoping Pole w/ handle
C-HDM-214	8.5" Telescoping Pole, side mount
C-HDM-215	14" Telescoping Pole, side mount
C-HDM-216	12" Telescoping Pole, side mount
C-HDM-217	16" Telescoping Pole w/ gusseted base

Side and Floor Mount Telescoping Poles are also available for equipment mounting. Please visit www.havis.com to view these poles and options.

3 Motion Devices & Platforms

Part Number	Description
C-MD-102	Swing Arm, Slide out, Tilt/Swivel Action Adapter with Handle
C-MD-104	Swing Arm without Action Adapter
C-MD-202	Low Profile Tilt/Swivel Motion Device with Handle
C-HDM-301	0" Fixed Mount Adapter
C-HDM-302	3" Fixed Mount Adapter
C-HDM-303	6" Fixed Mount Adapter
C-HDM-304	9" Fixed Mount Adapter

4 Additional Options to complete your system

Part Number	Description
C-HDM-401	Side Mount Support Arm
C-HDM-403	Removable Peripheral & Accessory Shelf for C-HDM-200
C-HDM-404	Side Mount Van Support Arm
C-HDM-405	"Lift Assist" Gas Shock for C-HDM-201
C-HDM-406	"Lift Assist" Gas Shock for C-HDM-202
C-HDM-407	"Lift Assist" Gas Shock for C-HDM-203, C-HDM-213
C-HDM-408	"Lift Assist" Gas Shock for C-HDM-205
C-HDM-415	"Lift Assist" Gas Shock for C-HDM-206, C-HDM-217
C-HDM-416	Heavy Duty Pole Clamp Bracket
