

# Soft Infant Wristbands

Gentle enough for a newborn's delicate skin

## Soft, comfortable wristbands for the smallest patients!

Wristbanding infants is a sensitive issue. While hospitals go to great lengths to properly identify infants, staff members are also concerned with the comfort and durability of the bands. Zebra kept these challenges in mind when creating a complete line of wristbands for infants.

Bar coded wristbands are the foundation for positive patient identification and the prevention of serious medical errors. Zebra thermal printers produce crisp, clear print quality on all wristbands, so bar codes scan quickly and reliably. Zebra offers several soft, comfortable infant wristbands to meet most hospital's needs.

Our new line of soft Z-Band® Direct and Z-Band® QuickClip™ wristbands feature a:

- Soft nylon material that is perfect for delicate skin
- Adjustable design that fits the smallest patients
- Flat surface print area to ensure ease of scanning
- 2" x 0.75" print area and a 0.5" x 6" band
- Patent-pending antimicrobial coating that protects the wristband

Our Z-Band Direct wristbands feature a pressure sensitive, adhesive tab closure for quick and easy securement, while our Z-Band QuickClip features a secure clip closure.

Our Z-Band Direct wristbands are available in cartridge form for use with our HC100 printer, as well as rolls for use with our desktop printers. Our Z-Band QuickClip wristbands are available in rolls for use with our desktop printers.

## Zebra's HC100™ Patient I.D. Solution

combines the reliable HC100 direct thermal printer with easy-to-load cartridges of Z-Band wristbands in adult, pediatric or infant sizes. Pop the wristband cartridge into the HC100 printer and print durable, individual wristbands on demand. The HC100 printer detects the wristband size and automatically calibrates its settings for optimal print quality.
